SuperNOVA Robotics Team is an after-school program in which students from grades 9-12 are given just six weeks to design, fabricate, build and program a 120 pound robot to compete in the FIRST Robotics Challenge. This team is open to all high school students in PWCS; we currently have members from Forest Park, Colgan and Woodbridge high schools.

SuperNOVA had an incredible season. We went on to become the one of the leading teams in the Chesapeake District which is comprised of 126 teams from Virginia, Maryland and DC. We were Tournament Champions at the Central Maryland event and Tournament Finalists at the Northern Virginia event. We won two engineering awards; the Creativity Award sponsored by Xerox and the Quality Award sponsored by Motorola Solutions Foundation for our ingenuity and design. Following an amazing run at the District Championship at the University of Maryland at College Park, SuperNOVA won a spot to the World Championships!

Now, we are working furiously to get ready to compete against the best teams from around the world!

FRC World Championship, April 25th – 28th
Cobo Center, Detroit, MI
